BETTER ACCESS ROADS, LESSER TRANSPORTATION COSTS, GREATER INCOME

Access roads in Bukidnon upland farms need improvement. In most cases concreting or filling of gravel on roads is a necessity for the farms to be accessible. The movement of crops from the farm to the market is one of the struggles of the farmers and the local communities due to the road condition. It takes time and a huge effort to transport goods because some areas are not accessible to 4-wheel vehicles. The mode of transportation is either habal-habal or through the use of animals such as...
